Ezat Elzalouy

Full-stack Developer at UNICODE
Egypt

Summary

I am a MERN stack developer who aims to Learn and always aspire to get better than before. My goal is to be responsible for every process in building an application to meet the identified business needs. These aspects consist of the design, development, testing, and mapping of the process life cycle of the application, deciding which principle, methods, design patterns, ...etc would be a good fit for achieving business objectives. My goal also is to get better with clients/Employer in Negotiation and get the best possible outcome together.
